Nikon is subject to the most changes this month, since on April 24th they unfortunately raised their prices on most lenses and bodies. That said, they also kicked in a ton of rebates, making some items even less expensive than during the last rebate period! These sale prices last until May 28th and of course, see our rebate blog posting linked above for huge long list of sale pricing!

Z6 III Body - \$2,799 (reg. \$3,499 - SAVE \$700!)

Z5 Body - \$1,399 (reg. \$1,799)

Z 14-24mm f/2.8 S - \$2,909 (reg. \$3,459)

Z 35mm f/1.2 VR S - \$3,369 (reg. \$4,069)

Z 600mm f/6.3 VR S - \$5,799

(reg. \$6,899 - SAVE \$1,100!)

Z8 Body - \$4,599

(reg. \$5,499 - SAVE \$900!)

# SONY

Sony has a bunch of rebates that run from May 8th until the 21st. Here are a few and for the rest, you know it: check our rebate blog posting!

A9 III Body - \$7,899 (reg. \$8,299)

A7S III Body - \$4,499 (reg. \$4,799 - SAVE \$300)

FE 24-105mm f/4 G - \$1,549 (reg. \$1,749)

FE 35mm f/1.8 - \$699 (reg. \$799)

FE 70-200mm f/2.8 G Master - \$2,599 (reg. \$2,699)

A7R IV Body - \$3,299

(reg. \$4,199 - SAVE \$900!)

Don't forget about our try before you buy program! Try something out that is available in our rental department before you decide to buy. If you love it and decide to buy one within 30 days, you can receive up to two days off of the rental cost as a credit toward the purchase. Ask us for more details and if restrictions apply.

## Profoto on Sale!

There is still time to save with Profoto's biggest sale of the year, but not for long...

Only until May 31, unlock massive savings on some of Profoto's most sought-after flashes – the Profoto A2, A10, B20, B30, and D30. That's right! To celebrate the upcoming wedding season, Profoto is rolling out unbeatable deals on the industry's most trusted, most reliable, and most creative lighting tools. This is the perfect moment for you to upgrade your gear, elevate your craft, and capture every unforgettable moment with the legendary performance of Profoto.

Click here for more details: <https://www.beauphoto.com/big-savings-big-power-big-inspiration>

## Something Special Is On Its Way to Beau Photo.

The [Profoto 3x2 LED Panel](#) will be arriving any day on Beau Photo's door step (if we had a door step) for you to have a look at, rent, and place an order for your very own. I have been told we are the only one on the west coast to have it and the first of only two in all of Canada to have it available.

The Profoto ProPanel 3x2 is a revolutionary LED panel designed to deliver 2000W of stunning soft light output in a lightweight and rugged IP65-rated package. Combining

exceptional power, portability, and superior light quality, this fixture is the perfect choice for professional filmmakers.

Weighing only 27 kg (59 lbs), the ProPanel 3x2 is powered by our innovative CTech™ technology, making it incredibly easy to handle. Unlike other high-power LED panels, a single gaffer can set it up in no time – no extra hands needed, no super heavy weight stands needed either – and you can also use it in portrait mode. More info and stats and where you can order your own found here : <https://www.beauphoto.com/product/profoto-1p2000c>

## The Future of Tripods is Here.

Manfrotto has just launched a new series of tripods called the **ONE** series.

The Manfrotto ONE series of tripods are designed for photographers and videographers who demand speed, precision, and uncompromised stability. The Manfrotto ONE platform delivers a solution that prioritizes sharpness, control, and faster setups without unnecessary complexity.

Designed and built in Italy, ONE Photo Tripod combines professional performance with timeless design. This is a tripod engineered for photographers who value reliability, thoughtful innovation, and tools that stay out of the way of the image-making process.

### Fast Setup, Effortless Control

Deploy all leg sections in a single, fluid motion using the patented XTEND mechanism, allowing rapid setup and adjustment without breaking concentration. Adjustable leg angles and modular feet ensure stable positioning on any surface, from controlled indoor environments to uneven outdoor terrain. Rubber feet can be removed to reveal spiked feet for added grip when conditions demand it.

Available as a kit with either a video head, ball head or 3-Way head, or just the legs by themselves so you can add a head you already own.

ONE Photo Aluminum Tripod	\$449.95
ONE Photo Aluminum Tripod w/XPRO Ball head	\$699.95
ONE Photo Aluminum Tripod w/ XPRO 3-way head	\$699.95

Also available in the HYBRID series with the flexible Xchange System for easy head and accessory swaps

One Hybrid Aluminum Hybrid Tripod	\$699.95
One Hybrid Carbon Fibre Hybrid Tripod	\$999.95
One Hybrid Aluminum Hybrid Tripod W/ 500x Fluid Head	\$969.95
One Hybrid Carbon Hybrid Tripod W/ 500x Fluid Head	\$1239.95

### Nikon ZR + Lenses Update!

In last month's newsletter, I wrote about the imminent arrival of the Nikon ZR, plus a couple of lenses in the Beau Photo Rental Department. We have received some good news, and we should have it by the time you read this!

As I mentioned, this is a try before you buy program, so you can take out the Nikon ZR body along with the 35mm f1.4 & 50mm f1.4 lenses for one day or over the weekend at no charge!

You need to book ahead as this will be a popular item. Call or e-mail the rental department to reserve. Please note a damage deposit of \$4,100 will be required for the ZR body and both lenses.

#### The main features of the Nikon ZR are:

24.5MP full-frame 'partially Stacked' CMOS sensor

7.5 stops IBIS

Up to 6K 60p

R3D (NE) Raw video codec

Large 4" 3.07M dot (1280 x 800px) 1000 nit display

AF subject detection for people, animals & vehicles

Internal 32-bit float audio recording

No mechanical shutter

Try out the Nikon ZR for yourself - video or stills, it might be the camera for you!

## Harman Switch Azure

Harman Switch Azure 125 is definitely one of those film stocks you shoot just to have fun with. It's rated at ISO 125 and uses C-41 processing, but the colours are anything but normal. Expect a lot of cool blue and teal shifts that can make everyday scenes look kinda surreal. It's not really about accurate colours at all, it's more about the mood. Results can be a bit unpredictable depending on lighting and how you expose it, but that's honestly part of the charm. Harman offers this film in both 35mm and 120mm, so whether you're shooting with a compact camera, an SLR, or medium format, you can carry that same aesthetic across different setups. If you're new to film, it might feel a bit random at first, but if you would like to experiment and not overthink it, it's a fun stock for casual street shots or just messing around with creative looks. We expect a shipment of this cool new film in the next few weeks. Watch our social media for updates.

Available soon at Beau Photo - 35mm \$19.95 120 \$17.95

## Vintage Tintypes

For this newsletter I would love to bring some attention to the beautiful vintage tintypes we have in store! If you're drawn to early photographic processes, they're worth taking a closer look at.

Vintage tintypes carry something you can't quite replicate. Each tintype is a one-of-a-kind object, made directly on lacquered iron plates, holding light from a specific moment in time. For collectors, tintypes offer a connection that modern prints can't quite reach. No negatives, no duplicates—just a singular image that exists exactly as it was made.

If you're already collecting older photographs, we also carry tools to help you preserve these memories. In store we have archival materials ranging from sleeves, storage boxes, and acid free paper for protecting slides, prints and negatives. We can help, whether you're starting a collection, or taking better care of one.

The image you see is features some of the tintypes we have available at Beau Photo that collectors have brought in for sale.
