Prices in effect while quantities last

Stock up now on Polaroid film!!

Polaroid prices are going up on selected film at the end of June, some by a significant amount.

Most of the increases are around 3 to 5 percent but if you use specialty films such as 665 or 55 pos/neg, sepia tone, 4x5 type 52, 57 (3000 iso), or 553 pack film or any 8x10 film, the increase could be from 15 to 35 percent.

If you are using any of these films you may want to stock up before the end of June. If you would like to place a large order, give us a call so we can make sure we have enough on hand for you.
