## BAGS

MEGHAN S.

### Think Tank Trifecta Backpack

We now have in stock the new **Think Tank Trifecta 10 DSLR backpack**. This very lightweight and versatile backpack is great for hikes, traveling or daily commutes with your gear when you want to have a good selection of lenses but not carry a weighty bag. Its slim profile allows you to easily make your way through crowded areas or on busy transit. This is definitely the lightest of all the ThinkTank backpacks so far, and also a very convenient bag, as you can access all of your gear without ever putting the bag down.

Living up to its name, the Trifecta has three different access points to get at your gear, as well as a top access for extra accessories or personal items. It also has inner pockets for memory cards, filters or batteries and other small accessories on one of the side openings. The exterior is very streamlined with no extra outer pockets. With all of these features, I think it would make for a great travel or day pack!

You can get a lot of gear in this bag, including a standard sized DSLR with lens attached and 2-4 extras lenses, personal items in the top, and a tablet up to 10 inches. It also comes with the standard all-weather cover, great padded shoulder straps and waist belt making for good all day support. The front stretchy pocket lets you carry a water bottle, or use the extra tripod attachment straps for a small tripod. - **Trifecta 10 DSLR Backpack \$202.16**

It also comes in a smaller size, the Trifecta 8 MIRRORLESS \$178.22. Currently a special order only, but we may stock it later!

## FILTERS / ACCESSORIES

SIMON B..

### Polarizing filters

A circular polarizer helps reduce reflections from glass, water and wet or shiny surfaces, which are quite common at this time of year. This often gives an image more vibrant colours because the camera is able to record the details in objects that would otherwise be obscured by reflected light.

On sunny days, polarizing filters will also make blue sky appear more saturated. They work best when shooting at a 90 degree angle from the sun, which also means that when used with wide angle lenses, the degree of polarization will vary across the image. You will need to compensate with 2-3 more stops of exposure when using these filters.

Linear polarizers will also give you the same effect but will cause the autofocus system and metering in your camera to not work correctly. They work well with older manual focus lenses and medium and large format cameras.

We stock the following options in screw in polarizing filters:

**B+W CircPol XS-PRO Nano KAESEMANN** - available in 52-82mm from \$161

**B+W Circular Polarizer** - available in 52-82mm from \$93

**Hoya Pro I Digital Filter** - available in 67-82mm from \$42

**All screw in filters are 10% off for Boxing Week! Get 20% off when purchased with a new lens.**

### LEE 105mm rotating Landscape Polarizer - \$350

This filter features a built-in warm-up effect and has been designed with a shallow 105mm diameter mount. The LEE system allows this filter to be attached on the outside of holder system, allowing other LEE filters to be used at the same time.

If you are thinking about purchasing a LEE 105mm landscape polarizer don't forget to add a LEE 105mm polarizer mounting ring at \$69.

## PRO SALES

KEN S.

### New at Beau Photo

#### Savage LED 100 Lights and Kits

We now have stock of the Savage LED 100 lights and kits. These single source LED constant lights are perfect for stills and video.

The single source LED means it is closer to the quartz halogen lights you might have used in the past, and it creates more pleasing and natural shadows like those created by the sun. Traditional LED panels that are made with many small LED lights have a tendency to create shadows that are stepped and not smooth, especially when placed close to the subject being illuminated. These shadows, which are result of the many individual little light sources, look staggered and often unnatural. The Savage LED 100 has only one larger central LED and is daylight balanced at 5600K. These units have an output of 13000/m lumen when used with the reflector, and an adjustable range of two stops in half stop intervals.

There is a wide range of accessories available since it uses a Bowens style mount. Softboxes, beauty dishes, reflectors and snoots are all available as modifiers to help you light your subject and create the mood you want to express. Introductory sale on in store stock only:

**Savage LED 100 head - Sale \$544.00** Reg. \$569.00

**Savage LED 100 2 head kit** with 2 heads, 2 stands, 2 reflectors, 2 barn doors, 2 umbrellas and rolling case.  
**Sale \$1279.00** Reg. \$1329.00

#### Datacolor Spyder 5

**Sale on until December 31st**

Datacolor's most up to date colour calibration tool, the Spyder 5 is the next step in helping you get accurate

prints. Datacolor Spyder5 is the color accuracy solution designed by photographers for photographers, to help them see, share and print

their images, just as they intended. The 3 versions of Spyder5 – EXPRESS, PRO

and ELITE – reduce the hassle of figuring out why digital photographs look different on screen, and why the colors on screen don't match photo prints. All Spyder5 product versions adjust, or calibrate monitors to an industry color reference standard so colors are accurate and shadow and highlight details are preserved. With true screen color, photographers can more accurately edit their photos and achieve better print matching.

**Spyder 5 Pro**      **Sale \$189.00**    Reg. \$239.00

**Spyder 5 Elite**      **Sale \$279.00**    Reg. \$359.00

**Spyder 5 Studio\***    **Sale \$520.00**    Reg. \$620.95

\* Special order only

### Lighting specials

#### Hensel Porty L200 Lithium Kit on sale.

This is a great location kit for the outdoor photographer. This kit includes 1- Porty LI 200 pack, 1- EH Pro Mini 1200P head, charger, 7" reflector and rolling bag. With the shift to a lithium battery from the old lead acid batteries

Hensel has made the Porty LI 200 faster, smaller, lighter, and stronger than the previous lead-gel cell battery units. It has a 1200W/s output but only weighs 13 lbs.

(5.9 kgs). The fast flash recycle times start from 0.2 sec. Combine that with extremely short

flash duration up to 1/8100 sec, symmetric or asymmetric power distribution, individual settings in 1/10 f-stop increments and an output range of 7 f-stops, and you have one great portable studio light kit.

**Sale \$3599.00** Regular \$4295.95 **One only!**

## Dynalite Demo Sale:

All demo items come with a full warranty.

**Dual Uni 400JRg. Dual Kit - Save \$1000:** The AC/DC powered Uni400JR is a versatile monolight. It can operate on both plugged into a standard 110V AC outlet or connected to the Jackrabbit II high voltage battery pack, so the Uni400JR operates wherever AC power is not available or convenient. With a fully charged pack, up to 150 full-power flashes are possible... up to 400 at its lowest setting. This kit comes complete with 2-Uni 400 heads, 2-stands, 2-Jackrabbit batteries, 2-chargers, 2-umbrellas and carrying case. **Demo Sale \$2425.00.** Regularly \$3435.50

**Roadmax 400 MK4-1222:** The MK4-1222 Kit is powerful and versatile enough to handle a wide variety of on-the-run assignments like fashion, corporate work, portraiture, weddings and interiors. The MP400 pack has 4 head outlets and breaks down its output symmetrically or asymmetrically over a 6 stop range with short flash durations at a super fast 1.0 seconds recycling time at full power. This kit comes with 1- MP400 pack, 2-MH2050 heads, 2-stands, 2-umbrellas, and carrying case. **Demo Sale \$1825.00.** Regularly \$2373.50

**Dynalite Ringflash SR3200:** The Dynalite Ring Flash provides a crisp, almost shadowless light when used with your Dynalite power pack, and can handle up to 3200 w/s. It has a modeling light feature not found in many other ringflashes. It can be used with any 35mm, or medium format style cameras, and its interior 100mm diameter center permits use of a wide variety of lenses. The included handle and bracket allow for hand-held or tripod use. It also comes with a 16' (4.8 m) head cable to move freely around your subject.

**Demo sale \$1999.00** Regularly \$2844.50

## New in Used

The Beau Photo rental department has upgraded to the newest Sony a7S II and A7R II cameras. So now you can buy a used a7S or a used a7R body and save!

The **Sony a7S** mirrorless digital camera features a full-frame 12.2MP CMOS sensor; expansive dynamic range for video and stills, low noise, and extended sensitivity to ISO 409600. It has a top continuous shooting rate of 5 fps, and a fast 25-point contrast-detection AF system. This used camera has only 4160 actuations and is for sale for **\$1599.00.**

The **Sony a7R** mirrorless digital camera features a full-frame 36.4MP CMOS sensor. The Sony a7R does not use a low-pass filter in front of its sensor which, in turn optimizes its high resolution and rich detail. It has an ISO sensitivity range of 100-25600. It will shoot full HD 1080 video capture with 24p/60i/60p frame rates. This used camera has only 12,138 actuations and is for sale for **\$1399.00.**

**These cameras come with a 30 day warranty!**

## RENTAL NEWS

JASON K.

### New in Rentals!

#### Nikon 24-70mm f2.8E VR

We have just received Nikon's new 24-70mm f2.8E VR lens! This new lens ups the ante with higher sharpness, speed, consistency, control and durability plus VR image stabilization technology over the older 24-70mm f2.8G lens. This is a solid lens, a little bit larger than the non-VR version, and also features the 'built like a tank' build quality we have come to expect from Nikon's pro level lenses.

**\$40/day**

**\*Due to the electromagnetic aperture mechanism, all film SLR, and older than about 3 year old DSLR bodies will not be compatible with this lens. Call to find out if it will work with your camera.**

#### Canon 35mm f1.4L II USM

In addition to the aforementioned Nikon lens, we have also just received the new Canon 35mm f1.4L II USM lens in the rental department! This new lens uses something called "Blue Spectrum Refractive Optics," which uses an organic substance to reduce or eliminate chromatic aberrations

and colour fringing. This lens also has improved weather and dust resistance over the previous lens, and a fluorine coating on the front element to repel moisture. I tested

this lens on a 50MP Canon 5DS, and it is sharp corner to corner, even at f1.4! Come try it out and see for yourself!  
**\$35/day**

### Holiday Rates:

For the holiday season, our opening days and hours have changed. For the Christmas weekend, we will be closing at 12pm on Christmas Eve, and we will be re-opening at 8:30am on Tuesday, December 29. **Gear that is rented out for the Christmas weekend will be charged at ONLY a one day rate for four days!** For the following New Year's weekend, we will be closing at 2pm on New Year's Eve, and will re-open at 8:30 on Monday, January 4, 2016. **Gear rented out for the New Year's weekend will also only be charged a one day rate!**

### Hosting a Holiday Party?

We have three portable printers that can be used for some great instant image fun at parties. **Rent one any time until January 18th and get 25% off!**

**Canon Selphy** – a wireless dye-sub printer that completes a 4x6 print in 30 seconds. Can print borderless or bordered prints. **\$25/day**

**Fuji Instax Share SP-1** – A small, wireless printer that uses Fuji's Instax Mini instant film to make prints from your smartphone. **\$20/day**

**Impossible Project Instant Lab** – Print from your phone! Utilizes the Impossible Project film for that artistic look. **\$25/day**

Don't forget about our try before you buy program! Try something out that is available in our rental department before you decide to buy. If you love it and want to buy one within 30 days, you can receive up to two days of the rental cost as a credit toward the purchase. Ask us for more details and if restrictions apply.

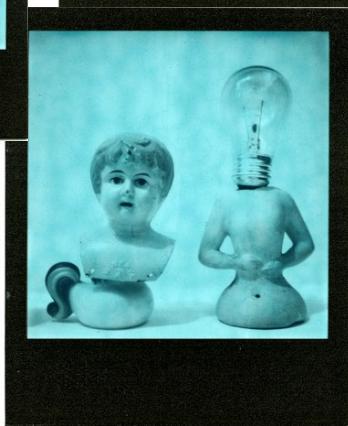

## Film / Analogue

NICOLE L-D.

### Merry Christmas everybody!

Just a reminder that we have the Polaroid Camera sale on here at Beau through till January 4th, while stock lasts!

Last month I promised photos of the **NEW Impossible Project Black & Green Duochrome film**, and here they are! I found it similar to the Third Man records Black & Yellow

Duochrome film. A bit on the dark side. But all in all, if you plan for that the results are beautiful! I also lifted the Black & Green Duochrome and found it interesting that the green

colour did run into the water a bit, however I liked this because I could rinse the emulsion more and control the teal saturation a little before I put it to paper. So I was able to get a lighter tone.

### Lots of New Consignments!

Please don't forget Beau Photo is putting out new consignments weekly, so come on in and check them out! All things from low end film to high end digital and everything in between!

### Photography Classes

Looking to take some photography classes this winter? Get in touch with the Dunbar Community Centre. They have winter black and white analog photography classes starting January 11 and again on February 22nd. These classes go every Monday evening at 7pm and run for one month. Either session costs \$150.00.

If you would just like to sign up to use the Dunbar Community Centre Darkroom they have orientation nights scheduled at 7pm on January 19th, February 9th and March 8th.

If you aren't the type of person that likes learning in a group environment Dunbar Community Centre also offers private lessons. This is nice because private classes are scheduled with the instructor at mutually convenient times. The private lesson costs \$150 but is well worth it. This gives you four and a half hours of instruction, and supplies and equipment are provided. Not only is this a wonderful way to learn, it could also be a great way to see if you are ready for the commitment of a home darkroom.

If you already have the skills but no darkroom, the Dunbar Community Centre Darkroom is available for rent, you can give them a call at 604-222-6060.

### Develop your own film!

Don't forget about film developing classes at Beau. You can have a one on one lesson and learn to develop your own black and white film for only \$45.

Call or e-mail [film@beauphoto.com](mailto:film@beauphoto.com) for more details.

### Impossible Project 8x10 classes

We are running the Impossible Project 8x10 classes again in January! If you want to learn how to use a large format

camera, and use the 8x10 Impossible Project film at the same time, this is the class for you. If you just want to get started with a large format camera, this will also help you understand the basics of these big but harmless cameras. You can book your individual session for January 21st by e-mailing Nicole at [film@beauphoto.com](mailto:film@beauphoto.com)

### Fuji Instax on Sale!

*Sale ends December 31st!*

*In stock items only.*

instant gratification.  
Just \$12.99 for a  
pack of 10.

**In the Film Department for Boxing Week...**  
Get student pricing on all film and darkroom paper!  
No ID required.

## RENAISSANCE ALBUMS

SIMON B.

**Wishing you all a wonderful Holiday  
and a Happy New Year.**

I would like to take a moment to thank you for all your support and I appreciate you choosing Beau Photo as your Renaissance Album dealer. It is a privilege that you have chosen us to help you tell your stories.

### Price Changes in the New Year

No one could have predicted how much the Canadian dollar has declined in the last year. Up until now, Beau has continued to keep the same Canadian dollar price list despite the increased exchange rate (absorbing up to 15%) in order to help our clients out for this year's orders. Even our Canadian manufacturer of folders has had to increase pricing due the higher cost of materials. As of January 1st 2016 we will be increasing the price of all Renaissance albums by 15%. I will be issuing a new price guide as soon as possible. Hopefully your new clients will understand the increase due to the current exchange.

All orders placed before December 31st 2015 will continue to be charged at 2015 price guide. If you have any new orders I would recommend submitting before the new year to save 15%.

Please e-mail [albums@beauphoto.com](mailto:albums@beauphoto.com) if you have any questions or concerns.

## TRAVEL PHOTOGRAPHY WORKSHOPS:

1. INDIA - JAN 2016
2. VENICE - APRIL 2016
