Fujifilm rebates are continuing past Christmas making it a good time to think about Fujifilm cameras and lenses!

There is something new for the month of December: the X Half is going on sale! This would make a great gift for a budding photographer looking to transition from a smartphone or film camera to a digital camera. It is a fixed lens, small sensor, vertical format camera that is very mechanically satisfying to use, and has some unique features that make it a lot of fun too! Its lens is a 32mm equivalent at f/2.8 wide open and it has Fujifilm's huge range of film simulations to choose from, plus additional features like Grain Effect and Portrait Enhancer. It also shoots video! It is a special order item so don't delay if you want delivery before Christmas!

Tenba Pouches

Point-and-shoots are incredibly popular. For many people, they're the first camera they fall in love with — and since most are many years old, these cameras deserve to be kept safe and snug. We've tracked down the perfect cases for these little gems: the Tenba Skyline V2 Pouches. They come in two sizes and can comfortably fit point and shoot classics like the Pentax Espio, or the pocketable Olympus XA-2. Tenba pouches

are the perfect companions for any point-and-shoot you've picked up from Beau Photo.

If you come into the store before December 1st, we are offering them at 25% OFF because we think they would make such excellent gifts.
